Wysocki Electric is an authorized service technician who specializes in installing GENERAC® Generator with the Automated Transfer Switch (ATS) to ensure that your office equipment or equipment seamlessly works in the event of an electricity supply interruption. We serve In South Jersey, Southeast Pennsylvania and Delaware. AVAILABLE FINANCING! Click here for more information or to apply. Starting at \$7,900 (FULLY INSTALLED ESTIMATE REQUIRED) EXAMPLES OF WHAT POWER: Good pump, well, Furnaces, Garage Doors, Kitchen Lights, TVs, and some kitchen shops. Generac® Model 11kW 7032 with 100 Amp ATS and Built-in 10 Circuit Load Center Starts at \$8,900 (FULLY INSTALLED ESTIMATES REQUIRED) EXAMPLES OF WHAT POWER: Good Pump, Refrigerator, Furnace, Garage Door, Kitchen Lights, Sump Pump, Family Room, Bathroom, General Light Living Room Shop, 5 Ton 7036 Air Conditioning Model with 100 Amp ATS and Built-in 16 Circuit Load Centers Starts at \$9,900 (FULLY INSTALLED ESTIMATES REQUIRED) WHOLE HOUSE! The unit is designed to power your home as if you were connected to the Grid ... All! Generac® 22kW Guardian Series Generator ~ Starting at \$9,900 Model 7043 with 200 Amp Service Rate Rated ATS with Load Shedding (asking for more information) THIS PRODUCT IS NO LONGER AVAILABLE. SEE THE PROPOSED REPLACEMENTS BELOW. Generac 7035 Features: Generac 7035 is operated by G-Force Genus Engine. This engine is a lubricated, stable and reliable pressure, can handle strict use, and requires less frequent maintenance than most models. Maximum 16000 LP Watts and 16000 NG Watts. It operates on a reasonable 66 Decibels, offering a quiet power solution. Quiet-Test™ Self-Test Mode runs the generator on the lower RPM while it performs a five or twelve-minute test. It is also a more fuel efficient model. 7035 is an affordable Wi-Fi. Real Power™ technology in this model means harmonic disorders decrease by less than 5%. This is equivalent to a smoother power quality for sensitive devices and equipment. The model has the Generac Evolution Controller. This LCD display monitors battery tables and maintenance, and operates with multiple language options. The model features an Aluminum Enclosure and RhinoCoat powder-coated finish. These characteristics defend against corrosion, and make this model durable and can survive the elements, including winds of 150 mph. Generac 7035 comes with a Limited Warranty of 5 Years. Generac prides itself on customer service, and offers 24/7 customer support, throughout the year. Generators and their engines are built in the United States. *This model does not include the Automatic Migration Switch. Generac 7035 16/16kW Air-Cooled Standby Generator offers enough electricity for your home and your home circuit protection. It's a quiet generator model with clean, soft power for your fine equipment. 7035 is strong enough to run the entire house if connected to the Load-Shedding Generac Switch, and could also power a 5-ton AC unit. The powerful Generac G-Force engine runs 7035. The engine is stable, can survive continuous use, is pressure lubricated, and does not require systematic maintenance of many other units. It delivers up to 16000 LP watts and 16000 NG of electric watts. 7035 weigh about 419 pounds and a length of 48, 25 wide, and 29 This model excludes the Automatic Transfer Switch, but provides significant backup power to the home. It's pretty quiet for residential operating on 66 Decibels. This unit has Sunyi-Test™ Self Test Mode; this reduces the RPM of the generator, and then the self-testing unit for five or twelve minutes. Such features help make this model more fuel efficient as well. It has enough power to run both its house and its equipment. Also, Generac 7035 16/16kW Air-Cooled Standby Generator supplies enough clean electricity for sensitive equipment. True Power™ technology reduces harmonic disruption—at less than 5% disruption, cleaner and safer power for devices. Generac 7035 has technological features that make it more modern and efficient than many other generators. Mobile Link™ Remote Monitor (sold separately) is a device that allows homeowners to monitor generators, even remotely. All one's needs are smart devices, such as smartphones, tablets, or computers, and internet access. With this in question, you can access information about the operation, service schedule and more generators. The Evolution of Generac™ Guard on the unit also reveals the requirements for the use and maintenance of unit batteries, all in multiple languages. 7035 also has protective features so that generators can withstand weather and other potentially damaging forces. The Aluminum enclosure and the defense of the RhinoCoat powder-coated finish against corrosion, and other wear and tear. When the storm hit, the Generac 7035 can withstand up to 150 mph of wind. This and all Generac generators are built in the United States with domestic and foreign parts. Generac looks at the serious reliability of the product, as well as customer support. They provide 24/7 customer service throughout the year. The unit is equipped with a Limited Warranty of 5 Years and Generac is always ready to provide assistance. & TECHNICAL SPECIFICATIONS; DOWNLOAD 7035 Brochure 7035 Specification Sheet Specification 7035 Installation Manual Owner 7035 Wi-Fi Warranty Quick Start Guide Guide
